# A STEP AHEAD IN TELECOMMUNICATIONS

# ABOUT BINATONE

Binatone is one of the world's leading consumer electronics companies with over 60 years of experience in creating outstanding consumer products. The company develops and manufactures innovative products for sale in 55 countries worldwide, products which offer high quality and great value for money creating high satisfaction with consumers.

Over the years Binatone has received countless awards for innovation and design. Based on expertise in research, production and marketing Binatone develops products that are user friendly and deliver the best in functionality at affordable prices. iDECT products combine advanced communication technologies with outstanding design for discerning consumers. For special consumer groups such as seniors and children Binatone offers specifically developed product ranges.

Aside from its own brands Binatone, iDECT and Voxtel, the company has been very successful in reviving and managing product groups for other brands such as Motorola and AEG. Binatone is the official licensee for Motorola Digital Baby, Pet and Home Monitors for worldwide markets and for Landline Telephones for North America. Binatone also develops and markets AEG branded Landline Phones, Corded Phones, GSM Mobiles and PMRs under license in Europe.
